

Hartford Toner & Cartridge proudly announces its new partnership with the Xerox Corp.

As of August 2011, Hartford Toner & Cartridge has entered into a partnership with the Xerox Corporation; one of the leaders within the document reproduction industry.

We can now offer any business the full line of Xerox copiers, printers and multifunction machines; along with their **MPS** "*Managed Print Service*" program for any copying, printing and faxing needs.

Currently, we are offering the opportunity for businesses to contact us to set up a **FREE** assessment of their complete print media environment. We feel confident that we will be able to save most companies money on their new or existing contracts.

Feel free to call Tim Golubeff at (860) 292-1280 (ext. 300) to schedule a free assessment of your company's printing needs.
